“Implementing the Pipeline Integrity Management Rule”

49 CFR Part 192
Pipeline Safety in High Consequence Areas
(Gas Transmission Pipelines)

Featuring:

Mike McGonagill, Alliance Pipeline, Moderator
Dave Bowmaster, El Paso Energy
Andy Drake, Duke Energy Transmission
Stacey Gerard, Office of Pipeline Safety, DOT
Hardeep Rana, Washington Gas

CORPORATE UNDERWRITING SPONSOR
Alliance Pipeline

Target Audience: Engineering, Operations, Safety, Environmental, Legal, and Communications

Objective: What does it mean? What needs to be done? What resources are available? What are HCA's? These are just a few of the topics and questions that will be discussed by a panel of industry experts regarding the Interpretation of the IMP Rule and the Implementation of practices.

You should expect to learn answers to the following:

- What is the intent of the Pipeline Integrity Rule? It's short and long term goals?
- What are the major Industry challenges of implementing the rule?
- What are the Government's challenges in auditing/inspecting Industry's implementation of the rule?
- What are the Organizational Implications of this Rule on:
 1. Industry
 2. Government
- When we talk overall Risk Assessment—Prescriptive or Performance Based? What does that mean?
