

WEB CONFERENCE Engineering Track

Thursday, April 28, 2005

9:30 – 11:30 AM CT/ 10:30 – 12:30 AM ET/ 8:30 – 10:30 AM MT

“Consulting - The Real Role of Engineers Case Studies in Common Sense Consulting”

PRESENTERS:

David W. Heldenbrand,
Bison Engineering
www.bisonengineering.com

Gary Willis,
Pegasus Engineering
www.pegasus-international.com

Program Overview:

Eliminate “re-work” by involving as many on your projects early and gain their confidence. There are times when you have to make decisions in the gray zone and you must have your team supporting you which means that you have to learn the skills of listening and motivating others to move to a position they may not fully support in the beginning of the project. Learn how to work with others to get your final results on time, on budget and within the corporate strategy of the organization.

Please join us to discuss:

- Case studies in common sense consulting
 - Effective Listening Skills
 - How to ask relevant questions
 - Learn observation techniques
- Lessons learned
- Mentoring
- Teamwork & Networking
- How to recognize the need for outside help
