Thursday, July 21, 2005
10:30 – 11:30 AM ET
9:30 – 10:30 AM CT
8:30 – 9:30 AM MT

“The Power of Purposed Performance: Moving to the Next Level”

Featuring: Allen Tappe, President of The Tappe Group
www.tappegroup.com

Target Audience: All employees! Anyone who wants to purpose their success both in life and in business!

This learning opportunity is a follow up to Allen Tappe's program on CTN in February 2005. Due to the overwhelming positive response to Allen's first glance at Purposed Performance, CTN is proud to have him review Chapter Two.

Program Overview:

The goal for this presentation will be to encourage, inspire, and equip the participants toward Purposed Performance in life and in work. Allen Tappe, President of The Tappe Group will share his insights on the Purposed Performance and Purposed Leadership Equations.

- **Recognized Potential (RP) + Personal Conviction (PC) – Unnecessary Interference (UI) = Purposed Performance**
 - Do you believe that it is possible for you to engage whatever you have before you with both passion and priority?
 - Why do you want to discipline yourself and make yourself accountable for a specific performance? Why be driven toward a given set of values and priorities?
- **Encourage + Inspire + Equip = Purposed Leadership**
 - There are three elements essential to executing life on purpose - Encourage, Inspire, & Equip.

Participants will be challenged to deal with the following questions:

- Do I believe that I (we) have the potential for meeting our challenges?
- Do I (we) recognize the distinction between necessary and unnecessary interferences?
- Am I (are we) playing the role of victim or leader in the process?
